Full Stack Web Developer with 4+ years of experience building user-focused interfaces and optimizing application performance. A passionate explorer of AI and agentic workflows. Always ready for the next innovation.

Technical Skills

- ◆ TypeScript, Linux, Git, AI / MCP Integration, Agentic Workflows, Ruby on Rails, Postgres, SQL, React, Redux, Electron, Material-UI, Jest, Cypress

Work Experience

- ◆ **Fly Over The City: Senior developer (contract)** October 2025 – present
 - Built MCP server for agentic development
 - Used LLMs to build testing infrastructure, increasing test coverage from 0% to 84%
 - Launched public API enabling customer workflow automation
 - Designed and built a modern React replacement for aging Ruby on Rails application
- ◆ **Curii Corporation: FrontEnd Developer** September 2022 – present
 - Reduced frontend load times by 62% (6.5s to 2.5s) through performance optimization
 - Consolidated testing suite from 3 libraries to 1 across 50+ test files
 - Conducted monthly customer meetings to design UI features, improving user satisfaction
- ◆ **Zeemoo LLC: Full Stack Developer (contract)** August 2022 – February 2023
 - Implemented Multi-Factor Authentication (DUO) and designed database schema using Prisma
- ◆ **Fullstack Academy: Web Development Mentor** August 2022 – August 2023
 - Mentored 100+ students across 4 cohorts in full stack web development

Engineering Projects

- ◆ **Arvados**: An open source platform for managing, processing, and sharing genomic and other large scientific and biomedical data, maintained by the Curii Corporation. UI and testing overhauls as well as developing new features to meet customer needs
- ◆ **The Redux General Store**: A stateless Redux store alternative that simplifies and automates the build-out for basic CRUD operations
